Military Status: Exempted

Profile

Detail-oriented Full Stack .NET Developer adept at bridging the gap between complex business requirements and technical implementations. Equipped with a solid foundation in Business Information Systems and specialized ITI training in web development and Generative AI. Highly skilled in building end-to-end applicationsfrom architecting intuitive user interfaces with modern front-end frameworks to designing secure RESTful APIs and databases. Recognized for strong problem-solving skills, adaptability, and a commitment to applying clean code principles to optimize business processes and enhance user experiences.

INTERNSHIPS

Information Technology Institute (ITI) Jan. 2026 – Jul. 2026
6-Month Program Intensive Code Camp: Full Stack & Generative AI Egypt

- Specialized in .NET development, EF Core, and integrating Generative AI models.
- Gained deep understanding of AI model behaviors and data training processes.

EDUCATION

Tanta University Graduated 07/2025
Bachelor of Business Information Systems (BIS) Tanta, Egypt

- **Cumulative GPA: 3.22 / 4.00**
- **Graduation Project (Research):** "Paternalistic Leadership and Organizational Behavior"
- **Project Grade: 4.00 / 4.00**

COURSES

International Computer Driving License (ICDL) Issued 2025
Advanced Office Productivity & Data Handling

- Mastery of **Microsoft Excel** for data sorting, pivot tables, and professional documentation.

PROJECTS

Real Estate Management Platform (ITI Graduation Project) 07/2026
Backend Architect & Team Lead

- Architected a production-grade **modular monolith** (**.NET 10**, **EF Core**, **SQL Server**) of 9 bounded modules communicating via **MediatR**/**CQRS** and the **Outbox pattern** for reliable event delivery.
- Built the full rent, subscription, and maintenance **payment lifecycle** with **Stripe** Checkout and webhooks, tiered late fees, a 1% platform commission, and automated **wallet ledger** crediting.
- Integrated AI features: a **Semantic Kernel** + Groq chatbot, **Qdrant** vector search for property duplicate detection, and **n8n**-driven LLM maintenance-ticket routing.
- Deployed on **Azure** (App Service, SQL, Redis, Blob) with real-time **SignalR** notifications and a **GitHub Actions** CI/CD pipeline using OIDC authentication.

Educational Management System 02/2026

Full Stack .NET Developer

- Engineered a comprehensive system using **ASP.NET Core MVC** and the **Repository Pattern**.
- Designed a robust relational database with **Entity Framework Core** and **SQL Server**.
- Integrated **ASP.NET Core Identity** for secure authentication and Role-Based Access Control (RBAC).

Ecobazar (E-commerce Platform) 12/2025

Front-End Architect & Developer

- Architected a responsive e-commerce platform using **Vanilla JavaScript (ES6 Modules)** and **Bootstrap 5**.
- Engineered an **OOP** data model supporting multi-role authentication and complete order lifecycles.
- Implemented complex state management using **localStorage** for cart and wishlist synchronization.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET Core, ASP.NET MVC, Web API, LINQ, Entity Framework Core

Front-End Development: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5

Data & Database: MS SQL Server Programming, Database Migrations, SQL Fundamentals

Generative AI: Prompt Engineering, RAG (Retrieval-Augmented Generation), Agentic Software, Gen-AI APIs

Engineering & DevOps: Design Patterns, Data Structures & Algorithms, Docker, Agile, Git, Secure Coding

Languages: Arabic (Native), English (C1)

INTERPERSONAL SKILLS

Problem Solving, Critical Thinking, Time Management, Organizational Skills, Effective Communication, Adaptability
